Fun with Lines
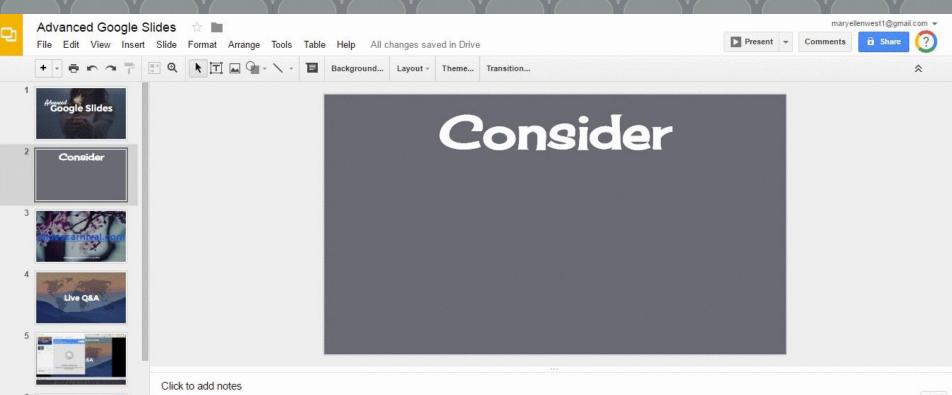

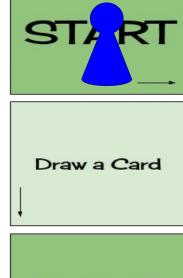

1. Resize this slide show to be what you want to create for students. An assignment? A custom widget?

2. Design the slideshow. Play with all of the features we have talk about.

3. Add your slideshow to your eClass page.

Google Slides

Consider giving students directions over to the side of a slideshow. This allows them to see the instructions as they work. They could even delete each step as they move through the assignment.
